19" FO Patch Panel BASIS eco

The 19'' Fibre Optic Panel BASIS eco

Telegärtner is now ready to supply this FO Patch Panel for fixed installation, completely equipped with adaptors type ST, SC and LC or additional with ready-for-splicing prepared Pigtails G50/125 OM2, with coloured coating acc. to DIN VDE 0888. This ensures continuous colour consistency of the fibres, from the installation cable, across the pigtails, and up to the connector. In addition, the stripped fibre ends save time for splice preparation. We supply from 10 pcs. in package units of 5 pcs.

Performance characteristics

- Housing and cover made of steel sheet, zinc plated
- Front plate made of Aluminium, powder laminated RAL7035
- Adaptors ST, SC-D und LC-D with metal sleeve

With Pigtails included

- Connectors type ST, SC and LC with ceramic ferrule
- Fibre type G50/125 OM2
- 12 different coating colours acc. to DIN VDE 0888
- Ready-to-splice preparation with 70 cm stripping length
- organized with cable ties which can be re-opened
- fixed in a splice cassette
- Connectors plugged-in to the adaptors

BASIS eco with 12 ST adaptors

BASIS eco with 12 SC Duplex adaptors and 24 Pigtails SC
