

Pigtails coloured in accordance with DIN/VDE 0888

Pigtails coloured in accordance with DIN/VDE 0888

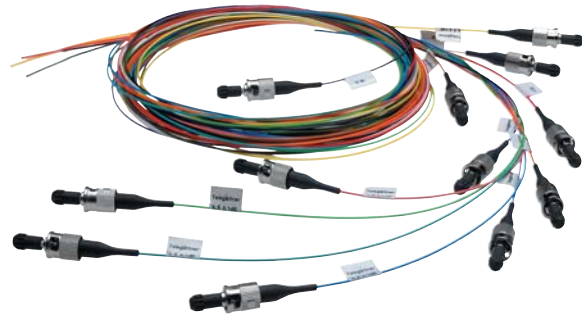

The new generation of pigtails in 12 different colours to comply with DIN/VDE 0888 provides quick and simple installation as well as efficient fault correction in case of a problem. By dying both the primary and secondary coatings in 12 colours, continuous colour consistency of the fibre-optic cables is assured, from the installation cable, across the pigtails,

and up to the connector.

For individual applications, Telegärtner offers pigtail sets with 12 differently coloured pigtails which - on request - can be stripped ready for splicing. Ready-to-install splice cassettes with stripped and inserted pigtails, as well as fully assembled 19" patch panels are also available.

Performance characteristics

- 12 x fibre pigtails with differing colouring in compliance with DIN/VDE 0888; colours: red, green, blue, yellow, white, grey, brown, violet, turquoise, black, orange, pink
- Primary and secondary coating in 12 different colours; loose-buffered; fibre 50/125 µm; length: 2.00 m
- Connector types as required: T-ST, T-SC, LC, MT-RJ, E-2000, etc.

T-ST fibre pigtail set

Available in the following versions:

- As pigtail set with terminated T-ST/T-SC connectors; ready-for-splice with 70 cm stripping available on request
- In a splice cassette; ready-for-splice with a 70 cm stripping; incl. cover; with terminated T-ST/T-SC connectors; graduated lengths
- Installed in a 19" patch panel, incl. adaptors; coloured pigtails, ready-for-splice

Telegärtner T-SC splice cassette

Order Number Description

L00819A0060	Pigtail set with 12x coloured fibres; 50/125 µm fibres; length: 2.00 m; connector T-ST
L00889A0053	Pigtail set with 12x coloured fibres; 50/125 µm fibres; length: 2.00 m; connector T-SC
U01100A0103	Ready-for-splice pigtail preparation, each stripped to 70 cm
H02050A0068	Telegärtner splice cassette, incl. splice holder and cover; equipped with 12x coloured fibre pigtails; 50/125 µ fibres; length: 2.00 m; inserted, separated to 70 cm, 12x T-ST plug-in connectors
H02050A0073	Telegärtner splice cassette, incl. splice holder and cover; populated with 12x coloured fibre pigtails; 50/125 µm fibre; length: 2.00 m; inserted, stripped to 70 cm, 12x T-SC connector
H02050A0060	Telekom splice cassette, incl. splice holder and cover; equipped with 12x coloured fibre pigtails; 50/125 µm fibre; length: 2.00 m; inserted, stripped to 70 cm, 12x T-ST connector
H02050A0072	Telekom splice cassette, incl. splice holder and cover; equipped with 12x coloured fibre pigtails; 50/125 µm fibre; length: 2.00 m; inserted, stripped to 70 cm, 12x T-SC connector

Complete patch panel with installed adaptors and pigtails (50/125 µm only), coloured, stripped ready-for-splicing, connectors as required, are available on request.
