# Termination Tools

# 7

For secure, time-saving and steady termination on-site, Telegärtner offers a wide assortment of auxiliary means and tools. For terminating a FO connector it is necessary to have tools for preparing the fibres, a crimp tool, polishing materials and a microscope for checking the connector end face. These tools are all packed in a aluminium case for se-

cure transport with room for supplementary sets. Supplementary sets are available for the termination of POF and LC connectors. For the assembly of RJ45 jacks and plugs Telegärtner offers a stripping tools, plier wrenches as well as adequate Crimp tools for the professional applications.
